

Mockup A

- Really like front page and full picture
- Nav bar looks good --> direct to other pages
- Like the record idea on the pages
- Maybe change fonts?
 - Fonts to fit each album
- Maybe change background color for each album
- Love dropdown menu on mobile view

Mockup B

- Background doesn't differentiate between albums (from lover album)
- Dropdown menu
- Keep homepage same, maybe differentiate pages correlate to each album--> background
- Love featured album scroll bar
- Like this font better
